## Summary

Logical and detail-driven Front-End Developer with a strong foundation in building performant, user-focused web applications. Experienced in React and Next, with solid knowledge of API integration, real-time features, and SEO best practices. Comfortable working independently or within cross-functional teams, often taking initiative in UI/UX design. Known for delivering scalable, production-ready features efficiently using modern tools and practices..

## Skill Highlights

- HTML / CSS
- Javascript, React, Next
- Typescript
- Git (GitHub, GitLab)
- React Native
- Bootstrap 5
- Tailwind CSS
- Python
- Linux
- WordPress

## Work History

### Front End Developer Jul 2024 to Jun 2025

**Darey.io - Full Time** | Remote.

- I leveraged **Loveable AI** to rapidly build and ship new application features, enabling faster delivery aligned with business requirements.
- I integrated WebSocket endpoints to enable real-time notifications across the platform, enhancing user engagement and responsiveness.
- I initiated the development of a new application, implementing an authentication system with role-based access control to manage different user roles.
- I optimised the website for performance and **SEO** by compressing images, utilizing WebP format, implementing lazy loading, memoizing functions and components, and cleaning up code to achieve high scores on Google PageSpeed Insights.
- I integrated the company's Dev.to blog posts into the landing page, allowing users to seamlessly read posts directly from the company's Dev.to account without leaving the site.

### Front End Developer Jan 2024 to Jun 2024

**Darey.io - Internship** | Remote.

- I collaborated with UX designers, Backend developers, and Front-end Developers, ensuring seamless integration and coherence across all development stages.
- I developed intuitive, usable, and engaging interactions and visual design.
- Integrated API's with React Query, ensuring efficient data fetching and caching.
- I leveraged various React third-party libraries to improve development efficiency.

### Front End Developer Jan 2025 to May 2025

**Bunchpay - Contract** | Remote.

- I developed a modern, responsive UI with Shadcn/ui for a consistent and accessible design.
- I utilized Recharts (Bar, Pie, Line charts, etc.) to visually represent complex data, improving readability and user understanding of key performance metrics.

- In the absence of dedicated UI/UX designers, I took the initiative to design clean, user-friendly interfaces, ensuring a consistent and intuitive user experience.
- Implemented a secure cookie-based token storage system for managing authentication states, enhancing both user security and session persistence.

#### **Front End Developer** Jun 2023 to Dec 2024

**Quikee.ng - Internship** | Lagos, Nigeria.

- I collaborated with UX designers, Backend developers, and Front-end Developers, ensuring seamless integration and coherence across all development stages.
- Made recommendations for new technology integration based on suitability and alignment with business goals.
- I developed intuitive, usable, and engaging interactions and visual design.
- I worked closely with the marketing team to enhance web traffic and product pages, focusing on behavioural analytics.
- I developed an interactive blog website using WordPress for marketing purposes.

#### **Front End Developer** Aug 2022 to Apr 2023

**Ajasec Exchange - Internship** | Lagos, Nigeria.

- I collaborated with senior developers and UX designers to build responsive user interfaces using React and Tailwind CSS.
- I assisted in integrating RESTful APIs using React Query for efficient data fetching and caching.
- I identified and fixed UI bugs across different screen sizes and browsers, improving cross-device compatibility.
- I participated in daily stand-ups and sprint planning sessions, gaining experience in Agile development processes.
- I contributed to code reviews and refactored existing components to improve performance and maintainability.

## **Education**

---

**B.Eng: Electrical and Electronics Engineering** – 2019/2020 to 2024/2025 @ **Federal University Oye-Ekiti**, Nigeria.

**DevOps Engineering** – 2020 @ **Darey.io**, Online.

**Software Engineering** – 2022 @ **ALX**, Online.

## **Certifications**

---

Web Foundation - 2020 (certificate): **Kibo School**.

## **Languages**

---

English (Native)
